# WHY YOU SHOULD BUY YOUR SHIRTWAISTS FROM US

**CORRECT STYLES**

Every woman, when she buys her shirt waists, likes to buy them where the assortments are selected—she likes to choose from among what she knows to be the choicest styles of the season, so that she may have the delightful pleasure of knowing that what she wears is correct.

The Walker style display of waists is in reality the survival of the fittest of the waist styles of the fashion centers of America. Walker waists are famous among the women of the country. Our customers buy with a confidence born of years of satisfactory dealings with us.

**WAISTS OF QUALITY**

Let us reiterate here a well-known Walker axiom: That in order for an article to be listed in the Walker Bargain Book, it must have quality. Our waists are doubly inspected to insure quality. Our waist business is enormous and, although we back every waist with the Walker guarantee of money back if not satisfied, it is a very rare occurrence to have a waist returned to us. Delighted customers always keep the waists when they see their superb quality, style and low price.

**LOWEST PRICES**

Volume business enables us to maintain lower prices. We buy in immense quantities—and call your attention to the fact that the material in many of these waists was bought months ago, when prices were far below the present market. Also, we utilize many short lengths and selected remnants, and thus, in many cases, can offer you a complete waist for less than the present market price of the material alone.

**CHAMBRAY FINISHED LINENE**

**PERCALE**

**5KX115** Striped percale is one of the most popular of materials for house dresses. Especially if your figure is inclined to the stout, you will find the unobtrusive stripes in this dress will give you that trim effect which is so desired. The style, as the picture shows, is somewhat conventional, but good. Cuffs, collar and belt are of gingham, which with large buttons in front give just enough trimming effect. Choice of either **Blue or Black** stripes in sizes 37 to 53.

**5KX113** This neat Mother Hubbard wrapper makes an exceedingly serviceable garment for house wear. We recommend it to those of slender figure, although it must be admitted that the clever designing of this garment permits of its being worn with splendid effect by medium figures. In fact, to such figures, it gives that stylish suggestion of slimmness. It is neatly made with an attractive collar to give an added touch. Deep full flounce. **Blue or Black**, in sizes 32 to 46.

**5KX242** Slip-on Middy Apron—another clever adaptation of the middy idea—an idea that is so full of practical possibilities. This splendid house garment is made of **percale**, in **light color** tones. The collar and belt are trimmed with neat piping. As the picture shows, this is a most serviceable style, and one of which we will sell thousands. The price should be about \$1.25, provided we fixed the price on the present value of the materials. But we are featuring this as a great special value. Sizes, 34 to 44.

These fine cashmere stockings will add to your comfort as well as your children's, because you know their feet are warmly clad. **White or Black.** In sizes 4 to 6. Postpaid, Pair..... **33c**

## Two Practical Garments at a Big Saving

**5K439** Ordinarily this exceptional house dress of French gingham should sell at about \$1.69; and, consequently, it may interest you to know how even the Great Walker Organization can sell it for a dollar. Several months we grasped the chance to buy an enormous quantity of selected mill ends and short lengths at a marked price reduction. From these we made the house dresses here offered—the saving we effected being passed on to you. Well made with White collar and cuffs. Blue or Pink plaid. 32 to 46. Postpaid..... **\$1.00**

**5KX433** Here is a most practical garment—ladies' linene overall. A great many designers have tried their hand in designing an overall suitable for ladies, but we believe the model here offered is best for general all around purposes. Suitable for either outdoor or indoor work. In fact, it is so much easier to work in than skirts that before long, practically, every housewife will have an overall. Trimmed with White collar, has long sleeves with cuffs; elastic in bottom of bloomers; two pockets in bloomers; Tan or Blue; 32 to 46. Postpaid..... **\$1.49**

have given continuous good service to the public for over thirty years. Long years of manufacturing experience are behind them and they are backed by the policy of The Eastman Kodak Co. of allowing nothing to be placed on the market which will not do all that is claimed for it. Each model is efficient and dependable in the fullest sense of those terms.

They use Eastman Cartridge Film, and all, excepting the No. 00, offer the advantage of daylight development by the tank method.

Every Premo is accompanied by a simply worded, complete book of instructions, which, if followed, will enable anyone, even without previous experience, to make good pictures.

Fire-box is roomy, takes 18-inch wood, and is proportioned to give best results. Improved duplex grate for hard or soft coal, wood, or any other range fuel. Operated from front of range. Left side has sliding draft damper directly in front of fire-pot. Swinging ash-door with nickeled ash-tender below. Extra deep ash-pit and large pan. Extension clean-out flue with nickeled door under oven bottom.

**MAIN TOP**—Has three interchangeable key plates or sections and six ribbed 8-inch covers. Equipped at front with a heavy full length nickeled front bar. Left end is fitted with a lift-up broiler door. Direct draft damper controlled from back of main top. One lid is nested for various sized utensils.

**BASE** is made entirely of heavy cast iron.

**OVEN**—Constructed of patented leveled copper-bearing steel in entirely one piece to insure against warping. The top is protected with heavy sheet asbestos. A cast-iron support extends across the top of oven plate to support the cooking top and prevent warping. The oven is fitted with two runners. The oven bottom is securely reinforced with cast-iron channel bars. Welded wire oven rack is clean and sanitary. Oven door is of spring balanced type and forms a shelf level with the oven bottom when opened. Positive locking oven-door handle of always cool type. Thermometer is of best style and guaranteed indefinitely.

**SMOKE-BOX**—Cast-iron flue box at the back of the range.

**NICKEL PARTS** are of new Colonial style, smooth and of mirror-like brilliance. DESIGN is plain, neat and strictly up to date.

**RESERVOIR**—This is of the encased quick heating type, built to the body of the stove, and fitted with a removable 15 quart porcelain-lined, cast-iron tank. Reservoir cover is in two pieces, finished in a Jet Black enamel to prevent rusting. A special damper sends the heat directly around the oven instead of around the tank. SHIPMENT—These ranges are shipped from the foundry to you. This assures new fresh goods, and bright nickel parts. Foundry is centrally located, assuring low freight rates to all points.
